

# COLLABORATIVE TABLE

## Product features

1. Professional portable splicing table.
2. Tip top classroom table with wheels for horizontal stack or fixed top without wheels.
3. Durable and portable.
4. Packing: 1 piece/carton.
5. It is required to use high-strength bolts and retaining nuts, which are firm and reliable after assembly.

**Parameter:**

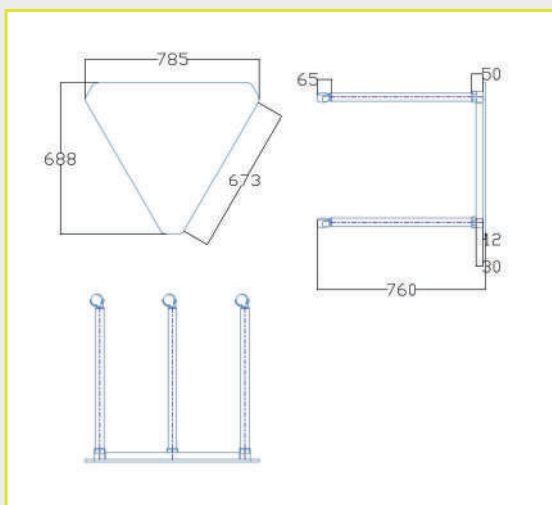

- (1) Length \* width \* height: 785 \* 688 \* 760;
- (2) Desktop material: It adopts a new anti-fold special board, which is fire-resistant, heat-resistant and smoke-resistant; water-proof, moisture-proof and mildew-proof, antibacterial and easy to clean; wear-resistant and scratch-resistant, anti-impact; environmental protection is harmless, non-toxic and odorless, safety and health; stability Strong, not easily deformed; rich in color;
- (3) Connection accessories: The use of high-quality aluminum die-casting materials, die-casting molding a one-time, the surface of the material through anti-corrosion oxidation treatment and high temperature curing of pure epoxy resin powder, with strong corrosion resistance and load-bearing;
- (4) Casters: ABS engineering fire-retardant plastic link, caster height can be qualitative;
- (5) Installation: High-strength bolts and nuts must be used to ensure firm and reliable assembly;
- (6) Standards: Requirements for materials, processes, overall safety, surface physical and chemical properties, and mechanical properties must comply with relevant national standards;

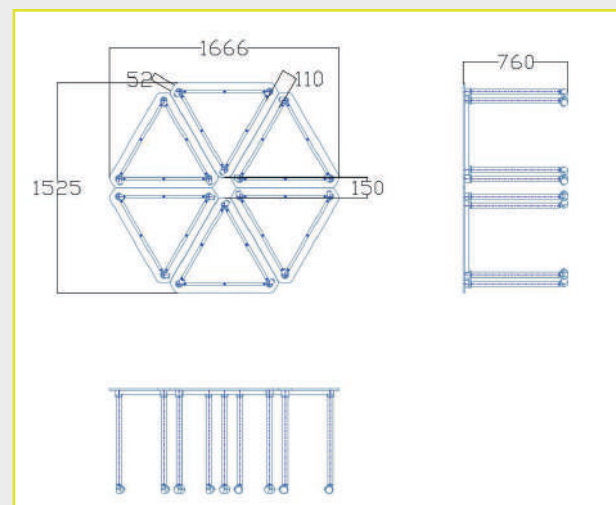

Product	Collaborative Table
Main Material	Melamine Board
Color	Customized
Advantage	Combines to form different shape.
Wheels	Easy to move
Table	Trapezoid Shape
Type	Folding Type
Drawer	To store things
